

Edge Spine

PearsonLloyd

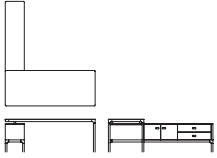

Technical

Edge Spine combines desks and storage in a myriad of configurations from executive desks to clustered workspaces. Whether the call is for focused concentration or collaborative teamwork, Edge spine has the flexibility to meet the challenge of multiple different work modes. Moored to the storage spine, desks appear to float over the tops of storage, increasing the impression of lightness and an unburdened aesthetic. Clustered pods create a more instinctive alternative to linear desks and encourage the flow of ideas. Simple, clean lines and a soft, refined code exemplify this range.

Materials

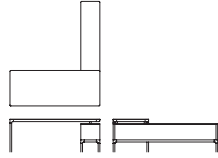

Tops	Available in a selection of inset or overlaid top materials, see finishes.
Frame	Powder coated aluminium.
Legs	Powder coated steel and aluminium with nylon adjustable glides.
Carcass	Textured lacquer on MDF with birch interior drawers.
